LOCAL BUILDERS WARN RESIDENTS ABOUT SCAM CONTRACTORS

North Little Rock, Arkansas (March 31, 2023). As Central Arkansas begins the recovery after the devastating effects of the tornado, local home builders are warning residents to be aware of scammers that may pose as legitimate contractors. The Home Builders Association of Greater Little Rock encourages all residents to research contractors to avoid paying for substandard home repairs.

“Unfortunately, unscrupulous contractors show up after the storms and try to take advantage of home owners to get them to pay for below average work or worse, they may not ever show up,” John Turner, Chairman “Before you hire a contractor, please make sure to do your homework.”

The Home Builders Association of Greater Little Rock recommends that homeowners in Central Arkansas research potential contractors:

- Find out if the firm has a permanent local business address and a good reputation.
- Insist on a complete and clearly written contract.
- DO ask for references and DO NOT pay cash up front.
- Call the Home Builders Association of Greater Little Rock for a list of reliable contractors.

The Home Builders Association of Greater Little Rock is a National Association of Home Builders-affiliated home builder association that represents the largest network of craftsmen, innovators and problem solvers dedicated to building and enriching communities.

The Home Builders Association of Greater Little Rock is the voice of the Central Arkansas housing industry. Our goal is to support members through education, to service as an advocate of industry professionalism, and service as a resource to the public.
